

Product Description

LED indicators seamlessly synchronize with smart door locks. When cubicle is occupied, a red light illuminates, delivering a distinct signal of occupancy. It supports LoRa connectivity to minimize the renewal cost.

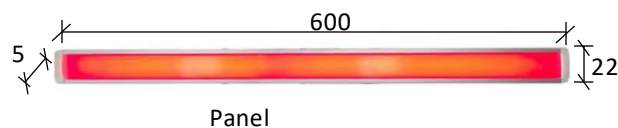

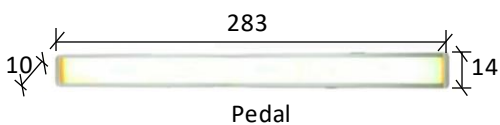

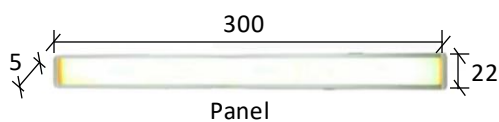

Product Features

- Wireless connectivity
- Fire - resistant materials
- High-temperature and low-temperature resistance
- Support customizable dimensions
- Provide various lighting specifications, such as red, blue, warm white, and green to suit their preferences.
- Low consumption power, 12V DC.

Product Dimensions

Unit: mm

Specifications

Operating Temp.	-40 ~ 85°C
Operating Humidity	10% ~ 90% RH (non-condensing)
Response Time	< 0.5S
Power Supply	12V DC, 1.5W
Material	Frosted Acrylic
Ingress Protection	IP65
Appearance	White
Installation	Door type installation
